

SimRush Chateau 4G

The SimRush Chateau 4G is a high speed, dual-band access point for really fast internet anywhere, anytime. You can reach speeds of up to 600 Mbps with carrier aggregation, as the CAT12 modem enables you to use three LTE bands at the same time.

It's ideal for businesses and homes who want a simple solution for quick, easy and reliable access to the internet. It's pre-configured to work out of the box so doesn't require an installation visit or fee.

The Chateau 4G also features 5 Gigabit Ethernet ports and one full size USB port to connect your devices. Strong dual-chain dual-band 2.4/5 GHz wireless for concurrent coverage will solve most interference issues in a crowded environment.
